excerpt from the apostle paul and the modern world an examination of the teaching of paul in its relation to some of the religious problems of modern life on the other hand a not less significant transition is to be observed in the habit of mind now prevailing in the modern world never before perhaps in christian history was religion regarded with so strange a mingling of indifference and responsiveness of abandonment of dogma and desire for faith of reaction from formalism and passion for reality of neutrality toward institutional christianity and loyalty to jesus christ this temper of the present time has been for the most part expressed in a new attitude toward the person of jesus as the master of souls rather than the source of dogma as claiming obedience rather than definition and as welcoming a discipleship not of intellectual conformity but of moral transformation an unembarrassed and spiritual loyalty is it is now generally agreed the only type of christian fellowship which is likely to commend itself to the mind of the modern world about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

seesengood traces the life and impact of paul one of christianity s most influential figures through the major periods christian history exploring the changing interpretations of paul and his work the author throws new light on his writings and on religious history offers a unique insightful journey through the many and varied interpretations of paul s life and work over 2 000 years from the gnostic controversy to luther and the reformation to contemporary debates over religion and science explains paul s pivotal role within christian history and how his missionary journeys canonized epistles and theological insights were cornerstones of the early church and central to the formation of christian doctrine argues that each new interpretation of paul is the result of a fresh set of cultural social and ideological circumstances and so questions whether it is ever possible to discover the real paul

can the real paul the apostle live again in a postmodern technological age paul s ministry stood at the very headwaters of the christian gospel surrounding jesus of nazareth his letters are the earliest documents contained in the new testament the current work calls upon the reader to actively engage paul in his context rather than to affirm the assumed theological paul of later christian orthodoxy the reader is thus invited to walk with a more real paul as he may be imagined from the sources we have to think paul s thoughts with him through his letters and to more fully experience the gospel of god that paul knew and proclaimed paul was a man in christ directly called by god to announce the gospel of god to both jew and gentile in the midst of a world ruled by rome he did so through two major campaigns rather than three missionary journeys he wrote pastoral letters to real first century churches the real paul did not write theology but he rather proclaimed a gospel to a world in search of a soul
