drawing connections between the findings of a research project following young graduates from the scottish islands of orkney and shetland current international evidence and theoretical literature this book argues that understanding rural and island student transitions can expose the wider dynamics of place and mobility at play during student and early career experiences highlighting the importance of a career perspective rosie alexander encourages readers to consider how career pathways develop across time and across transition points unsettling the notion of a straightforward transition through university into the workplace the book uncovers how student trajectories are developed through interweaving dynamics of relationships place and career routes and unpacks the implications for policymakers and practitioners it contends that a much greater spatial awareness is necessary to understand and support the educational and career pathways of higher education students this is a crucial read for higher education researchers policymakers and students interested in rurality as well as access to and transition from higher education

across the oecd and eu persistent spatial disparities in economic social and environmental outcomes are being amplified by megatrends risks and shocks climate change technological change globalisation and demographic change this has resulted in some communities feeling left behind and being faced by new threats against this backdrop place based policies have seen renewed interest these policies can respond to the needs and potentials of diverse places while also contributing to national competitiveness and social cohesion increased adoption of place based policies calls for a greater understanding of their purpose and of how to effectively design implement and evaluate them it highlights the need for effective place based policies that support structural transformations to build the long term economic social and environmental sustainability of regions and consequently of countries in recognition of the renewed interest the oecd and european commission commissioned twelve expert papers and organised a series of workshops in 2023 on place based policies for the future to help address future challenges this report synthesises the latest knowledge and evidence on place based policies to provide policymakers across all levels of government with insights on the design and implementation of better place based policies for better lives

providing a fresh examination of the nature of third world development the author focuses on the characteristics of particular places and regions and their influences on behaviour this is an important study of the relationship between population movements and regional and national changes

shaping places explains how towns and cities can turn real estate development to their advantage to create the kind of places where people want to live work relax and invest it contends that the production of quality places which enhance economic prosperity social cohesion and environmental sustainability require a transformation of market outcomes the core of the book explores why

this is essential and how it can be delivered by linking a clear vision for the future with the necessary means to achieve it crucially the book argues that public authorities should seek to shape regulate and stimulate real estate development so that developers landowners and funders see real benefit in creating better places key to this is seeing planners as market actors whose potential to shape the built environment depends on their capacity to understand and transform the embedded attitudes and practices of other market actors this requires planners to be skilled in understanding the political economy of real estate development and successful in changing its outcomes through smart intervention drawing on a strong theoretical framework the book reveals how the future of places will come to be shaped through constant interaction between state and market power filled with international examples essential case studies color diagrams and photographs this is essential reading for undergraduate and graduate students taking planning property real estate or urban design courses as well as for social science students more widely who wish to know how the shaping of place really occurs

the role and meaning of sustainable development have been recognized in the scientific literature for decades however there has recently been a dynamic increase in interest in the subject which results in numerous in depth scientific research and publications with an interdisciplinary dimension this edited volume is a compendium of theoretical knowledge on sustainable development the context analysed in the publication includes a multi level and multi aspect analysis starting from the historical and legal conditions through elements of the macro level and the micro level inside the organization organizing sustainable development offers a systematic and comprehensive theoretical analysis of sustainable development supplemented with practical examples which will allow obtaining comprehensive knowledge about the meaning and its multi context application in practice it shows the latest state of knowledge on the topic and will be of interest to students at an advanced level academics and reflective practitioners in the fields of sustainable development management studies organizational studies and corporate social responsibility the open access version of this book available at taylorfrancis.com has been made available under a creative commons attribution non commercial no derivatives 4.0 license funded by uniwersytet jagielloński

in humanitys struggle to find timely solutions to environmental problems it is easily forgotten that access to our shared spaces has never been equal this collection deals with the landscapes and places of rural urban and wilderness areas in relation development contributions examine the complex relationship that human beings maintain with their rural and urban environments and with other species in various places and spaces nothing is taken for granted colonial history globalization localization hybrid relationships colonial or shared architecture religious backgrounds and claims to equal access all fuse with policy strategies this volume discusses these issues within the framework of developmental discourse while asserting the rights of access to the global commons for all world citizens as well as other species

the editors would like to thank the authors of the papers at the advanced research workshops for their excellent presentations at the workshops and the production of their drafts we are indebted to those who helped in the preparation of this volume we should particularly like to acknowledge the help of piers millett who compiled the papers set them into camera ready format and produced the index and dr simon whitby who made the final changes to the manuscript any remaining errors are of course our responsibility malcolm r dando cyril klement marian negut graham s pearson ix achieving security benefits from technical cooperation under the biological and toxin weapons convention graham s pearson visiting professor of international security department of peace studies university of bradford bradford west yorkshire bd7 1dp uk 1 background 1 the biological and toxin weapons convention which opened for signature in 1972 2 and entered into force in 1975 currently has 144 states parties and 18 signatory states article i of the convention is all embracing in its complete prohibition of biological weapons stating that each state party to this convention undertakes never in any circumstances to develop produce stockpile or otherwise acquire or retain 1 microbial or other biological agents or toxins whatever their origin or method of production of types and in quantities that have no justification for prophylactic protective or other peaceful purposes 2 weapons equipment or means of delivery designed to use such
