visualizing human biology lab manual provides 18 labs specifically designed for the non majors biology student each of which

engages students by focusing on the structure and function of each person's own unique body. The lab manual includes key experiments with step-by-step visual guides and more interesting real-world topics to connect with students' diverse experiences. Visuals are used to teach and explain, not just illustrate, and students with varied learning styles will be engaged. The applications of common laboratory techniques in science, medicine, and everyday life are also explored in each lab topic.

For two-semester AP lab courses, stunning visuals and accessible tutorials engage students. In the AP lab, the Wood Laboratory Manual for Anatomy Physiology featuring Martini Art Sixth Edition is a valuable resource for engaging students in the lab, introducing them to applications, and preparing them for their future careers. The sixth edition teaches effective drawing techniques to promote critical thinking and ensure lasting comprehension. This comprehensive lab manual features more than 100 new photos that walk students through core lab processes, lab equipment, and animal organ dissections, as well as art that is adapted from Ric Martini's *Fundamentals of Anatomy Physiology Tenth Edition*. It is available in three formats: main, cat, and pig versions. The cat and pig manuals are identical to the main version with nine additional cat or pig dissection exercises. Note you are purchasing a standalone product. MasteringAP does not come packaged with this content. Students interested in purchasing this title with MasteringAP should ask their instructor for the correct package ISBN and course ID.
