civil society and civic engagement have increasingly become topics of discussion at the national and international level the editors of this volume ask does the concept of civil society include gender equality and gender justice or to frame the question differently is civil society a feminist concept conversely does feminism need the concept of civil society this important volume offers both a revised gendered history of civil society and a program for making it more egalitarian in the future an interdisciplinary group of internationally known authors investigates the relationship between public and private in the discourses and practices of civil societies the significance of the family for the project of civil society the relation between civil society the state and different forms of citizenship and the complex connection between civil society gendered forms of protest and nongovernmental movements while often critical of historical instantiations of civil society all the authors nonetheless take seriously the potential inherent in civil society particularly as it comes to influence global politics they demand however an expansion of both the concept and project of civil society in order to make its political opportunities available to all

a good social history of europe has yet to be written though given the developments over the last few decades this seems more urgent than ever before this volume presents an important step forward in that it brings together eight internationally known social historians from europe and israel each of whom offer an overview of some key themes in european history during the last two centuries while dealing with the great changes of this period the authors reveal the commonalities that link european societies together but also important differences at a national level

jürgen kocka is one of the foremost historians of germany whose work has been devoted to the integration of different genres of the social and economic history of europe during the period of industrialization this collection of essays gives a representative sample of his effort to develop by reference to marx and weber new and powerful analytical tools for understanding the dynamics of modern industrial societies

in recent years the concept of civil society has become central to the historian s understanding of class cultural and political power in the nineteenth century town and city increasingly clubs and voluntary societies have been regarded as an important step in the formation of formal political parties particularly for the working and middle classes the result of this is the assertion that the more associations existing in a particular society the deeper democracy becomes entrenched in order to test this hypothesis this volume brings together essays by an international group of urban historians who examine the construction of civil society from associational activity in the urban place from their studies it soon becomes clear that such simple propositions do not adequately reflect the dynamics of nineteenth century urban society and politics urban associations were ideological in purpose and deliberately discriminatory and as such set the boundaries of civil society thus competing and segmented associations were not only an indication of pluralism and strength but also highlighted a fundamental weakness when faced down by the interests of the state through a wide array of urban associations in a broad range of settings comprising austria and bratislava france and italy the netherlands austro hungary england scotland and the us this volume reflects on the construction of class nation and culture in the associations of the nineteenth century urban place in so doing it shows that a deep and interlocking civil society does not automatically lead to a rise in democratic activity expansion of the networks of urban association could equally result in greater subdivision and to the fragmentation and isolation of certain groups partition as much as coherence is our understanding of civil society and associations in the nineteenth century urban place

explores class formation and elite struggles in post communist central europe

since its discovery by german romantics and nationalists rothenburg has been an established icon of the german nation and its medieval past by tracing rothenburg s historical development as a place of national importance this book examines the cultural politics of historical preservation and tourism in general in exploring the shifting practice and importance of tourism in rothenburg and how this relates to broader debates about german culture and identity preservation tourism and nationalism offers an important and original perspective on the changing dynamics of romanticized historical landscapes and how events are used to further national cultural and political agendas it also analyses the changing practices of historical preservation and in particular how historic preservation in rothenburg reflects a desire to make it more historic and more german with important insights into what it means to be german how germans relate to the past and how the answers to these questions have changed

over time this richly illustrated and detailed volume offers an important narrative of the rise evolution and contestation of memory in german culture

this volume furthers our understanding of who actually ran cities in the eighteenth nineteenth and twentieth centuries and develops greater understanding of the relationship between elite and power in cities to develop answers two fields of research which have often remained separate have been brought together the economic social and cultural history of elite and the political history of power resources and decision making by looking at specific case studies through the lens of these issues the volume will encourage the reader to challenge common perceptions of a monolithic elite and to replace them with a more sophisticated view of urban power as an interplay between various economic social political and cultural elite groups

the industrial age has proved to be a formative period for europe industrial heritage nowadays bears witness to the development that took place in differently structured regions this volume presents different paths of industrial development and gives an overview of the concepts of regions used among economic social and cultural historians
