beginning in the early 1980s and continuing through the middle 1990s the u s army research institute for the behavioral and social sciences ari sponsored a comprehensive research and development program to evaluate and enhance the army s personnel selection and classification procedures this was a set of interrelated efforts collectively known as project a project a had a number of basic and applied

research objectives pertaining to selection and classification decision making it focused on the entire selection and classification system for army enlisted personnel and addressed research questions that can be generalized to other personnel systems it involved the development and evaluation of a comprehensive array of predictor and criterion measures using samples of tens of thousands of individuals in a broad range of jobs the research included a longitudinal sample from which data were collected at organizational entry following training after 1 2 years on the job and after 3 4 years on the job this book provides a concise and readable description of the entire project a research program the editors share the problems strategies experiences findings lessons learned and some of the excitement that resulted from conducting the type of project that comes along once in a lifetime for an industrial organizational psychologist this book is of interest to industrial organizational psychologists including experienced researchers consultants graduate students and anyone interested in personnel selection and classification research

success in competitive sports depends primarily on athletes skills personality and motivation many studies have investigated the determinants of success the presence of the zeitgeist social cognitive perspective in psychology has shifted the focus to motivation in top sports social cognitive approaches have become the primary framework for researching almost everything in psychology despite extensive discussion and research on the relationship between motivation and personality characteristics there is still a lack of evidence connecting psychological preparation pre competitive states and psychological techniques to sports success and efficiency there is still a gap in determining which psychological approaches and mental techniques contribute to success in top sports different regression models are expected to explore the determinants of success by comparing males and females as well as young athletes versus top athletes the final formula for success is still undefined regarding the importance of pre competitive states psychological preparation technical skills and knowledge techniques of psychological preparation such as hypnosis visualization or cognitive stress coping techniques are not clearly defined and discussed therefore addressing this gap is crucial the following goals should be discussed psychological factors contributing to success in top sports motivational variables contributing to success in top sports personality structures contributing to top achievements stress and coping strategies in top sports the use of psychological preparation and its relation to top achievement in sports evidence based research on specific psychological preparation techniques and their effectiveness in helping athletes achieve top performances pre competition states and their relation to success in top sports differences in psychological characteristics contributing to top achievements between males and females and between youth athletes and top athletes important factors in the development of motivation for success in athletes ethics and strategies to emphasize fair play in top sports the era of covid 19 and its relationship to success in top sports including correlation with specific psychological factors researchers are invited to submit original research to contribute to this topic we also welcome brief research reports systematic reviews and meta analyses reviews and theoretical articles by understanding the factors contributing to success in top athletes we can develop strategies to improve their results and effectiveness

this research topic is the second volume of the very successful and impactful collection called emotional resilience for wellbeing and employability the role of learning and training please see the first volume here today emotional resilience is one of the most important competencies in the process of young people s transition to adult life and developing a meaningful career emotional resilience is also important for maintaining well being after stressful events throughout life during the covid 19 pandemic many studies have shown the negative impact of perceived stress on people s well being careers and even their employability at the same time emotional resilience is important in everyday life as it protects against mental disturbances emotional resilience is a competence that can be developed under formal educational programs or trained using a range of training methods and tools emotional resilience is a trait people have from birth and develop throughout their lives it is a trainable capability that can be used to display positive adaptation to stressful situations and cope with life s challenges research on emotions in recent decades has identified key essential components that could be included in a curriculum designed to develop emotion based knowledge and skills although the topic of emotions is widely explored research on learning and training for emotional resilience still has several gaps especially in the field of emotional resilience for well being and employability therefore this topic aims to provide evidence based contributions to amplify the diversity of learning and training methods and practices for building emotional resilience this research topic is open to descriptive and experimental research and methodological proposals emerging in educational and training contexts that aim to take emotional resilience into account we especially welcome contributions that help understand how emotional resilience training contributes to long term mental health conditions and well being as well as professional development and employability in the labor market the goal is to collect and present to the reader research that would help profile diagnose and evaluate the impact of educational emotional interventions on students employees the unemployed and other groups

providing a perspective for teaching psychological testing this book tells the story of testing within a chronological framework based on an integrated social and psychological interpretation of testing as an important aspect of north american society this approach balances coverage between the history and the essentials of psychological testing and allows for discussion of the relationship between society and testing throughout rogers presents the ideas of the testing field in the contexts in which they emerged and places testing squarely within ongoing debates and controversies in the discipline of psychology

in one volume the leading researchers in industrial organizational assessment interpret the range of issues related to industrial organizational tests including test development and psychometrics clinical applications ethical and legal concerns use with diverse populations computerization and the latest research clinicians and researchers who use these instruments will find this volume invaluable as it contains the most comprehensive and up to date information available on this important aspect of practice
