c'est une évidence aussi bien l'école dans son rôle social que les langues en tant que compétences à
acquiescer sont au cœur de vifs débats publics la réflexion de cet ouvrage collectif porte sur les rapports
entre langues école et société en matière de langue et de culture l'institution scolaire a jusqu'ici été le
plus souvent envisagée comme un instrument d'homogénéisation nationale au détriment des langues
minoritaires régionales ou d'immigration a contrario l'école peut-elle aujourd'hui dans un contexte de
globalisation des échanges dont on a pris conscience qu'il menace la diversité contribuer à sauver des
langues et des cultures en voie de disparition par ailleurs la prise en compte en milieu éducatif des
langues autres que la langue nationale n'est-elle pas un bon moyen d'intégrer sans assimiler c'est-à-dire
en respectant et même en valorisant les différences et non pas en les niant ou en les pourchassant et si
tant est que l'on choisisse la première de ces options quelles sont les voies les plus adéquates de la
planification linguistique scolaire qu'elle suppose quelles expérimentations didactiques et
pédagogiques mener et jusqu'où ces actions inscrites dans le cadre scolaire sont-elles aptes à avoir des
effets d'entraînement décisifs sur les sociétés qui entourent l'école du colloque réuni à l'université de
perpignan les 30 septembre et 1er octobre 2005 résulte une trentaine de contributions
emanant d'universitaires de formateurs d'enseignants et d'enseignants suivies d'une table ronde finale
à partir pour l'essentiel de trois terrains celui des langues de France régionales et de l'outre-mer celui

des langues propres des communautés autonomes espagnoles celui des territoires de langue catalane

la question des rapports entre groupes ethniques d'finis par différents marqueurs dont celui de la religion s'impose aujourd'hui plus que jamais au sein de nos sociétés plurielles cet ouvrage original s'intéresse au rôle de l'éducation dans la dynamique des relations entre la communauté juive et leurs concitoyens de toutes origines au Québec au Canada et dans d'autres pays en effet alors que les communautés juives sont souvent bien implantées dans leurs sociétés d'accueil elles demeurent souvent mal connues de la population et plus particulièrement des groupes majoritaires les auteurs se penchent sur trois enjeux susceptibles d'interpeller les intervenants des milieux scolaire et communautaire mais aussi le grand public intéressé au vivre ensemble et à ses défis l'enseignement sur les communautés juives à l'école publique l'éducation sur l'holocauste et les pratiques novatrices à cet égard le vécu des écoles juives et leur impact

primary school books were vehicles by which authors in nineteenth century France hoped to shape the future these authors members of the middle class believed in reason and progress and in their own ability to ascertain what was reasonable and to enforce progress not surprisingly they did not always get the cooperation of the people whom they were trying to lead to a civilized life peasants who made up the largest population of those needing progress in the view of the middle class did not accept new ideas unquestionably they worked out their own compromises evasions and selections from the portrait of the good life presented to them in the village primary schools the books of Zulma Carraud are particularly interesting because they were directed specifically to socializing rural children to modern gender roles annotated excerpts from her best selling books *la petite Jeanne ou le devoir* and *Maurice ou le travail* highlight the growing difference between women's work which is referred to as duty and is portrayed as an expansion of woman's nature and men's work which remains a duty to his family country and God but more importantly becomes a source of fulfillment provides a sense of achievement and of self worth in Carraud's books men use their skills to tame nature to create civilization in an ever expanding field of endeavors while women's work remains confined to child nurture house care care of the sick and elderly the process of inculcating new values is traced with the aid of school inspectors reports the letters and diaries of teachers and a collection of notebooks kept by rural pupils these documents provide a rare view of the dialectic nature of historical change
