in the long tradition of the archaeology of the eastern mediterranean bodies have held a prominent role in the form of figurines frescos or skeletal remains and have even been responsible for sparking captivating portrayals of the mother goddess cult the elegant women of minoan crete or the deeds of heroic men growing literature on the archaeology and anthropology of the body has raised awareness about the dynamic and multifaceted role of the body in experiencing the world and in the construction performance and negotiation of social

identity in these 28 thematically arranged papers specialists in the archaeology of the eastern mediterranean confront the perceived invisibility of past bodies and ask new research questions contributors discuss new and old evidence they examine how bodies intersect with the material world and explore the role of body situated experiences in creating distinct social and other identities papers range chronologically from the palaeolithic to the early iron age and cover the geographical regions of the aegean cyprus and the near east they highlight the new possibilities that emerge for the interpretation of the prehistoric eastern mediterranean through a combined use of body focused methodological and theoretical perspectives that are nevertheless grounded in the archaeological record

examining stone vessels in the levant during the 2nd millennium bc the author explores the links between material culture and society through a comprehensive study of production and distribution extensively illustrated with 100 drawings maps and charts this volume includes a full object catalogue this study represents the first comprehensive overview of the stone vessel assemblages of the levant in this period a time which fed by an increase of wealth and interregional trade saw a growth in the popularity and variety of such vessels previously our understanding of the varied functions and forms of these diverse vessels has been relatively underdeveloped in this volume the author attempts to address this problem by creating a typological framework through which we can analyse variability and define essential characteristics of local stone vessel workshops only once this has been achieved is it possible to look at stone vessel production in its wider cultural context subsequent chapters explore broader themes beginning within the workshops themselves examining the links between craftsmen their sources of raw materials and the authorities that controlled and distributed their output considerations of the geographical and chronological distribution of such goods are then used to provide a regional perspective for the operation of these workshops connections between them and further insights into the nature of local and international trade finally the objects themselves can

be used to assess the impact of trends such as the growing egyptianization of the ruling classes of the levant at this time
