

this bold and ambitious handbook is the first systematic overview of the history of development ideas themes and actors in the twentieth century taking stock of the field the book reflects on blind spots points out avenues for future research and brings together a greater plurality of regions actors and approaches than other publications on the subject the book offers a critical reassessment of how historical experiences have shaped contemporary understandings of development demonstrating that the seemingly self evident concept of development has been contingent on a combination of material conditions power structures and policy choices at different times and in different places using a world history approach the handbook highlights similarities in development challenges across time and space and it pays attention to the meanings of ideological cultural and economic divides in shaping different understandings and practices of development taking a thematic approach the book shows how different actors governments non governmental organizations individuals corporations and international organizations have responded to concerns regarding the conditions in their own or other societies such as the provision of education health or food approaches to infrastructure development and industrialization the adjustment of social conditions population policies and migration and the maintenance of stability and security bringing together a range of voices from across the globe this book will be perfect for advanced students and researchers of international development history

this anthology offers a cutting edge perspective on how development has shaped the history of the modern world stephen j macekura and erez manela have gathered together leading historians to examine development on the international regional and national levels as well as local manifestations of development initiatives and transnational organizing on behalf of alternative approaches themes include the relationship between empire and development the role of international institutions the influence of the cold war decolonization and post colonial development strategies reform and resistance to development development and global health and the ecological effects of development the development century examines how ideas and discourses about development have shaped its practices on the ground explores the ways in which policymakers and experts attempted to implement development through specific institutions and policies and analyzes development initiatives and their effect of local environments and people

a radical history of development studies traces the history of the subject from the late colonial period all the way through to contemporary focus on poverty reduction in this now classic genealogy of development the authors look at the contested evolution and roles of development institutions and explore changes in development discourses combining personal and institutional reflections with an examination of key themes including gender and development ngos and natural resource management a radical history of development studies challenges mainstream development theory and practice and highlights concealed critical discourses that have been written out of conventional stories of development the volume is intended to stimulate thinking on future directions for the discipline it also provides an indispensable resource for students coming to grips with the historical continuities and divergences in the theory and practice of development

economic development has been for many years the dominant national policy objective of the countries in the third world but there has been little consensus on the goals and definitions of development focusing on the era since world war ii h w arndt traces the history of thought about economic development to show readers in nontechnical terms what the development objective has meant to political and economic theorists policymakers and politicians from adam smith to ayatollah khomeini

as an historiographic monograph this book offers a detailed survey of the professional evolution and significance of an entire discipline devoted to the history of science it provides both an intellectual and a social history of the development of the subject from the first such effort written by the ancient greek author eudemus in the fourth century bc to the founding of the international journal *historia mathematica* by kenneth o may in the early 1970s

these volumes are part of encyclopedia of water sciences engineering and technology resources in the global encyclopedia of life support systems eolss which is an integrated compendium of twenty one encyclopedias the two volumes present state of the art subject matter of various aspects of history development and management of water resources these volumes are aimed at the following five major target audiences university and college students educators professional practitioners research personnel and policy and decision makers

following the emergence of marx s foundational theory regarding the historical progression of humanity there arose a widespread disillusionment with overarching theoretical frameworks consequently scholarly attention shifted predominantly towards localized and regional issues however it is imperative for historians to possess a comprehensive understanding of the broader trajectory of societal development lacking such insight is akin to a sailor navigating the seas without a compass
