the reputation of business managers is declining due to their disregard for moral decisions and ethical practices business students are currently taught only technical knowledge without concern for being compassionately and holistic engaged however when entering the business sector these graduates encounter a world which necessitates difficult personally challenging decisions ones for which technical knowledge is insufficient successful sustainable resolutions can only be expected to result from a holistic sustainable approach which accommodates the difficulty in balancing ethical practices with the demands for ever increasing profits this unique graduate textbook addresses the issue of business ethics from the perspective of an individual s internal growth facilitated by a consideration of the principles of depth psychology spiritual wisdom meditation and quantum physics written by a ceo with an enormous business background it not only promotes a new ethical approach but also addresses the implementation of this new approach in the most important business sectors as a replacement for previous ineffective codes of conduct which have failed it s a must read for business students with aspirations of becoming managers or entrepreneurs in the economic sector as well as for all young professionals managers and entrepreneurs to improve their ethical performance and sustainable success message from the author this book creates an impetus for change in a business world where unethical practices are rampant by providing a suggested a new integral ethics for the economy an ethical approach based upon inner psychological and spiritual development arising from a serious consideration of depth psychology readers will learn how adoption of specific practices which lead to inner growth and spiritual maturity will result in ethical morally sound business practices not because they are mandated but because once the self is actualized you cannot do otherwise laws appeals and directives which have never successfully resulted in ethical practices become unnecessary replaced by intrinsically ethical individuals who collectively influence corporate ethical behaviour this is a giant leap into a new dimension in our globalized digitized economy business ethics 3 0 by erhard meyer galow provides a much needed beacon of light to a segment of our society that seem to be sinking deeper and deeper into darkness the term business ethics once an important topic within the business community has slowly descended through the fog of profitable ends justifying unprincipled means to become nothing more than a self contradictory oxymoron especially among large international corporations in business ethics 3 0 erhard meyer galow has taken a fresh approach that appeals to individual personal growth rather than the usual proffering of academic arguments that are not implementable in the real world of relentless machiavellian competition only through raising and improving individual awareness and responsibility can real long term change have a chance of developing business ethics 3 0 is on the right track with a positive and compelling message may it succeed where the academics have failed thomas campbell physicist consciousness researcher author of my big toe finalist at the 2018 humanistic management book awards

while skeptics once saw the concept of business ethics as an oxymoron modern businesses are proving them wrong success depends not only on educating young professionals about ethical practices but on the implementation of these practices in all aspects of a company the handbook of research on business ethics and corporate responsibilities explores the fundamental concepts that keep companies successful in the era of globalization and the internet investigating the implementation of best practices and how ethics can be taught to the next generation of business experts this handbook is an essential reference source for students academics business managers or anyone interested in the increasingly interdisciplinary field of business ethics and its applications in the world today

in a series of articles specifically commissioned for this volume some of today s most distinguished business ethicists survey the main areas of interest and concern in the field of business ethics sections of the book cover topics such as the often easy relation between business ethics and capitalism the link between business ethics and ethical theory how ethics applies to specific problems in the business world the connection between business ethics and related academic disciplines and the practice of business ethics in modern corporations includes extensive accessible discussion of all of the main areas of interest and debate in business ethics features all original contributions by distinguished authors in business ethics includes an annotated table of contents bibliographies of the relevant literature and a list of internet sources of material on business ethics perfect comprehensive book for use in business ethics courses

this encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society

institute a proactive reputational management framework that matches individual behaviour to organizational values the business ethics twin track is a practical guide to reputational risk management a deep exploration of the concept of reputation the ways in which it can suffer and the consequences when it does the book outlines an ethics controls framework that can mitigate risk and improve business performance readers will learn how to identify and manage weaknesses and how to institute a system of governance that embeds proper ethical conduct into the corporate culture a clear set of controls and procedures provides actionable instruction that can be customised to suit the organisational structure and discussion of historical and international ethics provides the context for implementation case studies illustrate the real world applications while interviews with executives from a variety of sectors provide important practical insights into some of the key issues discussed in the book the law regulates behaviour in health and safety and financial crime but otherwise conduct is largely determined by the culture ethics and values of an organisation effective reputation management is complex and often difficult to achieve as much of the available information on the topic is more theoretical than practical this book bridges the gap by providing the tools that will help managers to implement a modern ethics control framework encompassing codes officers reporting lines and training consider the role of the media and social media in reputational damage to individuals and organisations analyse the key controls in responsibility and governance frameworks from around the world determine the causes and controls of conduct risk including incompetence negligence and criminality today s fast paced media environment means corporate reputations can be obliterated in moments and damage limitation is often too little too late adopting the measures set out in this book will embed ethics into the culture and match people s behaviours to the organisation s values

the eighth edition of managing business ethics shows students how the study of ethics is relevant to real life business decisions this highly regarded text empowers students with the knowledge required to identify understand and solve ethical dilemmas while promoting ethical behavior in themselves in their friends and colleagues and in their organizations authors linda trevino and katherine nelson offer a pragmatic approach to prepare students for professional roles as managers compliance officers human resources managers senior executives and others focusing on the types of problems that students will most likely encounter in their careers this new edition includes carefully revised content that incorporates the latest research on ethics and organizational behavior the authors integrate theory and practice to provide a balanced presentation of both classic and recent business ethics cases examples and approaches accessible and engaging chapters discuss ethics and the individual managing ethics in an organization the relation between organizational ethics and social responsibility and more throughout the text a diverse range of examples and case studies bring key concepts to life while practical activities enable students to apply the concepts in

their own lives and careers

in a field dominated by books that focus exclusively on the perspective of business in large corporations or that assume that business has a moral deficiency in need of reform al gini and alexei marcoux offers students and business people alike a concise guide to what everyone ought to do when doing business where other books are organized topically gini and marcoux look at the moral features of business that recur across topical areas stressing the considerations that bear on business people whether they be corporate functionaries principals in family businesses or solo entrepreneurs who do it all end to end they present to students the essential concepts ideas and issues involved in ethics in business and emphasize the individual acting person and what it means to have character and integrity when doing business

what has ethics got to do with my job how can i take on ethical responsibility and help to make my company more successful at the same time although ethical responsibility has become something of a catchphrase these days most people only have a vague idea what it means and how it can be demonstrated in actual practice disasters like the volkswagen s emission scandal the oil spill in the gulf of mexico the nuclear meltdown of fukushima the global financial crisis and countless lesser known cases of damage to human beings and the environment are the result of unethically irresponsible business practices efforts to maximize profits frequently lead to reckless behavior as those in charge focus on short term benefits and ignore social and environmental risks their actions have negative consequences not only for the victims but in many cases for the perpetrators themselves too aggrieved interest groups or disadvantaged stakeholders may react with strikes public protests or boycotts jeopardizing their reputation and profitability this textbook applied business ethics is the result of many years of research work and lecturing and is an attempt to present the most important principles and the latest approaches in business ethics to students teachers and business practitioners alike and help them to make business decisions that everyone concerned will benefit from rather than just a few fortunate stakeholders the author illustrates his theoretical subject matter with practical examples of real life situations and provides numerous exercises to help the reader grasp complex issues moral dilemmas and business risks better in clear accessible and easily understandable terms he demonstrates how ways of finding satisfactory solutions can be found in a systematic way thanks to interdisciplinary research and philosophical reflection
