the energy and climate change committee believes that energy companies found to  
have mis sold electricity and gas deals should pay compensation to consumers the  
committee is concerned that customers may be pressured into switching supplier on the  
door step without proper consideration of the options when confronted with a vast array  
of complex tariffs and a hard sell figures from ofgem suggest that up to 40 of consumers  
who switch do not end up with a better deal the report also raises concerns about the  
propensity for energy prices to rise like a rocket and fall like a feather the growing  
complexity of tariffs and the market dominance of the big six vertically integrated energy  
companies the mps single out recent price increases from scottishpower for particular  
criticism customers who use the least energy will be hit the hardest from august when  
the increases are put into effect providing an apparent incentive for higher consumption  
when energy companies are now supposed to be helping consumers become energy  
efficient electricity and gas tariffs are now so complex that even the energy minister  
admitted he got confused when trying to switch the committee is worried that a lot of  
people are simply bamboozled by their bills and the vast array of different tariffs on offer  
the industry should address these problems immediately without waiting for ofgem or  
the government to act
