is it a miracle or a coincidence when an 11 year old boy is able to solve a mystery too complex for nasa scientists what if it happens twice or thrice these questions mark the beginning of problems for victor who is torn between accepting the boy s miracles and finding a logical explanation with his knowledge of deep space as the miracles appear more often the boy finds himself stuck in the role of an evangelist something that he did not ask for something that might even get him killed

i have been requested to write some papers on our lord s miracles i venture the attempt in the belief that seeing they are one of the modes in which his unseen life found expression we are bound through them to arrive at some knowledge of that life for he has come the word of god that we may know god every word of his then as needful to the knowing of himself is needful to the knowing of god and we must understand as far as we may every one of his words and every one of his actions which with him were only another form of word i believe this the immediate end of our creation and i believe that this will at length result in the unravelling for us of what must now more or less appear to every man the knotted and twisted coil of the universe it seems to me that it needs no great power of faith to believe in the miracles for true faith is a power not a mere yielding there are far harder things to believe than the miracles

for a man is not required to believe in them save as believing in Jesus if a man can believe that there is a God he may well believe that having made creatures capable of hungering and thirsting for him he must be capable of speaking a word to guide them in their feeling after him and if he is a grand God a God worthy of being God yea his metaphysics even may show the seeker if he is a God capable of being God he will speak the clearest grandest word of guidance which he can utter intelligible to his creatures for us that word must simply be the gathering of all the expressions of his visible works into an infinite human face lighted up by an infinite human soul behind it namely that potential essence of man if I may use a word of my own which was in the beginning with God if God should thus hear the cry of the noblest of his creatures for such are all they who do cry after him and in very deed show them his face it is but natural to expect that the deeds of the great messenger should be just the works of the Father done in little if he came to reveal his Father in miniature as it were for in these unspeakable things we can but use figures and the homeliest may be the holiest to tone down his great voice which too loud for men to hear it aright could but sound to them as an inarticulate thundering into such a still small voice as might enter their human ears in welcome human speech then the works that his Father does so widely so grandly that they transcend the vision of men the Son must do briefly and sharply before their very eyes
