bread contains human knowledge from knowledge concerning fertility of the land to farming methods harvesting and seed processing not to mention the different possibilities of consumption of cereals and the different ways in which they are cooked in bread we find all those components the transformation of the natural landscape technological and economic development which over the centuries have led to the building of a social organization with a precise division and distribution of tasks and roles

the work aims to present the history of ancient sardinia no longer understood as a peripheral closed and poor island but as one of the provinces most inserted in the roman ecumene a land according to polybius vast populous and fertile the volume collects and summarizes the heritage of

research and scientific commitment carried out in recent decades the result of projects of increasingly international scope and increasingly technologically advanced research methodologies the work benefits from the long collaboration with joyce reynolds and explores the boundary between change and continuity starting from the possible quadripartition of the sub provincial territory between the main cities carales tharros turris libisonis olbia it addresses the theme of the ancient landscape in a rural setting between romania and barbaria and then the economic and social aspects the relationship between history and geography the large estates for community use the land registry the farms entrusted to the colonists the possession by important senatorial families the roads the bridges the milestones the contribution of the sardinians to the army legions and auxiliary units and war fleet there are many new features and a very up to date bibliography the aim of this volume is to demonstrate that the roman legacies profoundly influence the plural identity of today s sardinia an expression of a long history that in some way also conditions contemporary society
