1 new york times bestseller in sapiens he explored our past in homo deus he looked to our future now one of the world s most innovative thinkers explores what it means to be human in an age of bewilderment fascinating a crucial global conversation about how to take on the problems of the twenty first century bill gates the new york times book review a financial times best book of the year how can we protect ourselves from nuclear war or ecological catastrophe what do we do about the epidemic of fake news or the threat of terrorism how should we prepare our children for the future 21 lessons for the 21st century is a probing and visionary investigation into today s most urgent issues as we move into the future as technology advances faster than our understanding of it hacking becomes a tactic of war and the world feels more polarized than ever harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive in twenty one accessible chapters that are both provocative and profound harari untangles political technological social and existential issues and offers advice on how to prepare for a very different future from the world we now live in how can we retain freedom of choice when big data is watching us what will the future workforce look like and how should we ready ourselves for it why is liberal democracy in crisis harari s unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers here he invites us to consider values meaning and personal engagement in a world full of noise and uncertainty when we are deluged with irrelevant information clarity is power presenting complex contemporary challenges clearly and accessibly 21 lessons for the 21st century is essential reading

bilateral investment treaties bits signed prior to the 21st century are problematic some countries with bits signed during this period have since reviewed those bits and taken action to address the disadvantages the bits held for the host nation or have either resorted to eradicating some of their bits in particular developing countries that signed bits with developed nations seem to be disproportionately disadvantaged in these agreements this research highlights kenya s current bit situation and compares it in light of another developing country south africa with regards to its bit experience given that south africa has undergone an extensive bit review process and moves to change some of these bits this study compares and contrasts the kenyan

and south african experience the study highlights the possible lessons that could be learnt from the south african bit review experience and provides recommendations for the kenyan government regarding its outdated bits the lessons and recommendations benefit not only kenya but also other countries that are still to review their bits as it adds to the literature on why it is important for countries with such bits to revisit them and how they can go about the review mechanism best in addition the study is also significant as far as it raises awareness of the use and effects of bits thereby enabling countries that enter into such agreements to make informed decisions

bringing together leading scholars and practitioners from the worlds of leadership followership transitional justice and international law this research provides a blueprint of how people led bottom up grassroots efforts can foster reconciliation and a more peaceful world

augustine s problem provides a new approach to st augustine s life and doctrine hypothesizing that his problem was not sexual addiction but sexual impotence for augustine the problem with sex was not the seductive nature of women but the unpredictability of desire which can induce an unwanted erection or fail to provide one when even the mind would choose to have sex he extends his personal incapacity to a general impotence of the will we can never without grace choose any good just as the impotent man cannot work on his impotence we cannot work on our salvation only god can make a difference and predestines a tiny elect the disobedience of the garden is transferred to the disobedience of the male member guaranteeing that the sin of eden is transferred in conception as original sin the most controversial elements of augustine s theology are all linked to the theme of impotence as expressed in his writings from the confessions to the anti pelagian works written at the end of his life

the successful book *il secolo decisivo* is available for the first time in english now in a new revised edition at the turn of the 22nd century human beings are living in the most prosperous moment in history the many crises that troubled them at the dawn of the millennium are a distant memory the economy exists in balance with the environment and work has become a personal choice but how did we get here how did we solve the great problems of the contemporary world from climate change to the labor market crisis from the gaping inequalities in wealth

distribution to the spreading new populisms and nationalisms using a broad range of academic sources and an accessible writing style tabellini offers a vision of a prosperous future with its roots firmly in the present and its branches always in the realm of possibility

examines the dangers the world faces global warming terrorism religious extremism and water shortage and sets out a proactive solution

this critique of current development policies and ideology provides alternative approaches for building a sustainable and just society for the new millennium

the must read history of the 21st century you will be surprised to hear that optimism is an innate quality of civilization and that better times must be ahead of us this will happen because the human race is a product of evolution and evolution is characterized by its ability to forge ahead this book will show you why the 21st century will be the best that civilization has ever seen technology will continue to unleash progress in a way never seen before and computers leading the bio and nano technologies could very well create a world of abundance for all to create this world of abundance for all the inhabitants of the earth there will be a need to recognize that people are not only citizens but they are also and foremost consumers if the world ever thinks like this the poor will be rich and the rich even richer
