John Tobey and Jeff Slater are experienced developmental math authors and active classroom teachers. They have carefully crafted their texts to support students in this course by staying with them every step of the way. Tobey and Slater with you every step of the way. This 6th edition of *Beginning Algebra* is appropriate for a 1-semester course in introductory beginning or elementary algebra where a solid foundation in algebraic skills and reasoning is being built for those students who have little or no previous experience with the topic. The ultimate goal of this text is to effectively prepare students to transition to intermediate algebra. One of the hallmark characteristics of *Beginning Algebra* 6e that makes the text easy to learn from is the building block organization. Each section is written to stand on its own and each homework set is completely self-testing. *Beginning Algebra* 6e is a worktext meaning the design is open and friendly with wide margins so you can encourage your students to take notes and work exercises right on the text page. Also with worktexts, images and visuals are used more frequently to convey the math concept so there are fewer words and less text for the student to read. A brief review of arithmetic skills, real numbers and variables, equations and inequalities, solving applied problems, exponents and polynomials, organizing, factoring rational expressions and equations, graphing and functions, systems of equations, radicals, quadratic equations for all readers interested in algebra.

In the 14 years since it began in 1995, electronic commerce has grown in the United States from a standing start to a \$228 billion retail business and a \$3.4 trillion business-to-business juggernaut, bringing about enormous change in business, firms, markets, and consumer behavior.

Internet Literacy 3e helps students understand the processes behind the flash of the Internet and gives them the tools they need to become creators and publishers, not just consumers of the Internet. *Internet Literacy* offers a comprehensive introduction to the Internet and the world wide web and provides the conceptual background and the online skills needed for students to become Internet literate. These concepts are reinforced by hands-on tutorials such as creating and publishing.

pages and using search engines to conduct research internet literacy also reflects on the impact of emerging technologies on the future of schooling e commerce and communications while encouraging students to become intelligent consumers of information pub website
