few architectural styles evoke so strong a sense of place as pueblo architecture this book brings together experts from architecture and art archaeology and anthropology philosophy and history considering pueblo style not simply architecturally but within its cultural religious economic and climate contexts as well the product of successive layers of pueblo indian spanish and anglo influences contemporary pueblo style is above all seen as a harmonious response to the magnificent landscape from which it emerged pueblo style and regional architecture first published in 1990 is a unique and thorough study of this enduring regional style a sourcebook that will inform and inspire architects and designers as well as fascinate those interested in the anthropology

culture art and history of the american southwest

she draws on extensive interviews city council proceedings and historic plats and photographs to construct a detailed picture of how these districts originally looked and were used how they were renovated and to what ends they were marketed

the west is popularly perceived as america s last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into america s land of opportunism from sun valley to santa fe towns throughout the west have been turned over to outsiders and not just to those who visit and move on but to those who stay and control although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil s bargain in the making hal rothman examines the effect of twentieth century tourism on the west and exposes that industry s darker side he tells how tourism evolved from grand canyon rail trips to sun valley ski weekends and disneyland vacations and how the post world war ii boom in air travel and luxury hotels capitalized on a surge in discretionary income for many americans combined with newfound leisure time from major destinations like las vegas to revitalized towns like aspen and moab rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers and because tourism often results in a redistribution of wealth and power to outsiders observes rothman it represents a new form of colonialism for the region by depicting the nature of tourism in the american west through true stories of places and individuals that have felt its grasp rothman doesn t just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take deftly balancing historical perspective with an eye for what s happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the west whose life is touched by that industry can afford to ignore

coleman traces skiing from its norse roots and alpine influences through the utility of ski travel in the winter rockies to the rise of colorado resorts much more than a history of the sport her work explains how the recreation industry sold the experience of skiing and created mythic mountain landscapes with real problems and a ski culture that exalts celebrity and status over the physical act of skiing jacket

This is likewise one of the factors by obtaining the soft documents of this **The French Farmhouse Its History Construction And Regional Styles** by online.
