how does one imagine plurality how does one find new strategies for writing diversity and polyphony how does one read the most challenging creative and critical works of the present time this bilingual volume of twelve English and eight French papers proposes to breach linguistic critical frontiers by placing careful analysis of texts from different language traditions in a multi-lingual and multi-cultural dialogue in this collection of theoretically and politically aware close readings of contemporary cultural production the focus of analysis rests on the multiple and complex global convergences and interferences of cultural influences the collection foregrounds the work of innovative writers who seek to express the ungraspable presence of cultural newness at the same time as situating themselves in the richness of detail of local lives this volume most particularly finds a balance of critical approach between the everyday attempts at negotiation and survival and the insight brought to the reader by postcolonial syncretic and feminist theoretical analysis

part i provides some contexts for what is inevitably our reading of the history plays so that perhaps we may guess at the

impact they may have had on their contemporaries the author suggests by implication a way of approaching elizabethan drama that may be generally useful part ii is a consideration of what the author thinks are some major issues in the ricardian plays

this is a memorial volume for albert ehrman the contributions of this gedenkschrift testify to his scholarly excellence in the field of judaic semitic lexicography and etymology and do full justice to the richness and thought inspiring qualities of his publications besides the papers in honour of ehrman the volume contains four reprints of the aramaic fucus red lichen and a full bibliography of the works of albert ehrman

2019 witnessed the 30th anniversary of the german reunification but the remembrance of the fall of the berlin wall coincided with another event of global importance that caught much less attention the 250th anniversary of napoleon bonaparte s birth there is an undeniable historical and philosophical dimension to this coincidence napoleon s appearance on the scene of world history seems to embody european universalism soon thereafter in the form of a modern imperial project whilst scholars such as francis fukuyama saw in the events of 1989 its historical fulfilment today we see more clearly that the fall of the berlin wall stands for an epistemic earthquake which generated a world that can no longer be grasped through universal concepts here we deal with the idea of europe and of its relation to the world itself picking up on this contingency of world history with an ironic wink the volume analyses in retrospect the epoch of european universalism it focusses on its dialectics polemically addressing and remembering both 1769 and 1989 l année 2019 a oto marquée par le 30e anniversaire de la réunification de l allemagne oclipsant un autre ovonement d envergure mondiale le 250e anniversaire de napoléon bonaparte la dimension philosophico historique de cette coïncidence ne peut pourtant pas otre négligé si l arrivée de bonaparte sur la scéne de l histoire mondiale semble incarner l avonement de l universalisme européen bientot amené o prendre sa forme moderne et imporiale certains penseurs ont suggoré avec francis fukuyama que 1989 marquait son accomplissement historique aujourd hui il apparaot au contraire que la chute du mur de berlin a oto un véritable tremblement de terre opistomique et rendu inopérants les concepts universels dans le monde d après c est o l idée d europe et o sa relation au monde que nous avons affaire revenant par un geste ironique sur cette contingence historique le présent volume se veut une analyse rétrospектив de l opoque de l

universalisme dans toute la dialectique que les commo~~m~~orations de 1769 1989 ont fait surgir
